USB CAPABILITIES

PROCESS TRIVEX, CR39,
POLYCARBONATE, &
HIGH INDEX LENSES

Continuing with its great reputation,

the SGX Pro provides progressive labs around the world with proven, high performance cutting technology for CR39®, hi-index, and polycarbonate lenses. Based on the SGX Plus Platform design, the SGX Pro Surface Generator is equipped with new electronics operating on a Windows 7 platform. Its user interface has been upgraded and includes a touch screen monitor.
