

HYDRO ONE EDGING PADS

Designed specifically for slippery AR/hydrophobic lens coatings.

Features

18 x 31mm Open Center
#381731

NEW

Hydro One antislip edging pads combine the durability of our blocking pads with the excellent adhesion of our antislip discs.

Replaces the need to use two different edging pads when working with AR coated lenses.

Edging super slick hydrophobic lenses is easier, safer, faster and more economical with Hydro One.
