NEXUS DP

DIGITAL LENS POLISHER

Next generation in soft-tool lens polishing

High volume production system for free-form RX lenses

Final polished lens is optically clear and virtually haze–free

COBURN TECHNOLOGIES

KEY FEATURES

NEXUS DP

DIGITAL LENS POLISHER

Soft Tool Laps

- Produce better surfacing (cut & polished) free-form lens results than any other system in the industry.
- 80% of range accomplished with just one lap.

Customizable Control

- Control, move, and manage the lenses with greater speed, accuracy and variation with 3-axis motion control.
- Manual rinse station with foot pedal operation.
